“Music is near the earth, natural, physical, within the range of everyone to learn it and to experience it. Music is never music alone but forms a unity with movement, dance and speech.” Carl Orff, composer (1895-1982)

The SWELL conference is a celebration of the Orff Schulwerk approach to creative music education which encourages the active participation of teachers and students alike through moving, singing, playing, improvising and composing music. ANCOS is delighted to bring you this opportunity to experience first hand Orff Schulwerk's vibrant and innovative approach to creative music making.
